<u>4-H Working Steer Manual</u>		7.00
---------------------------------	--	------

Published by the University of New Hampshire Cooperative Extension. Written for children involved in the 4-H working steer program, but an excellent resource for any age.

44 pages. 8 1/2" x 11", B&W. Paperback.

<p><u>A Field Guide to Cows</u></p> <p>by John Pukite</p> <p>A Field Guide to Cows makes it possible for even the novice to identify and get to know America's fifty-two breeds of cattle. Every entry in this entertaining yet completely usable book features an illustration that highlights a breed's most easily identifiable traits, such as coloration pattern and body shape. Filled with facts and lore about all breeds, it also offers a glossary of terms, the lowdown on cheese, historic cattle trails and famous cows, and a checklist so the cow watcher can keep track of sightings. Fascinating cow trivia and cartoons are abundantly available for grazing throughout the book.</p> <p><i>140 pages. 7 1/2" x 8". B&W. Paperback.</i></p>	<p>\$ 14.00</p>
<p><u>ABC's of Early Americana</u></p> <p>by Eric Sloane</p> <p>A sketchbook of Inventions, Curiosities, and Lore.</p> <p><i>Paperback. B&W.</i></p>	<p>12.95</p>
<p><u>An Age of Barns</u></p> <p>by Eric Sloane</p> <p>Eric Sloane was a prolific , famous American painter, illustrator, and author who published more than 40 books. His book is the classic, folksy, history of barn folklore, arthitecture and history. Filled with thousands of fabulous black and white sketches that illustrate all types of American and Canadian barns and everything associated with them, this is a spectacular visual tribute to these historically and architecturally important structures.</p> <p><i>94 pages. 9" x 11". B&W line illustrations. Paperback.</i></p>	<p>16.95</p>
<p><u>The Backyard Lumberjack</u></p> <p>by Frank Philbrick and Stephen Philbrick</p> <p>Frank and Stephen Philbrick explain what it takes to bring a tree from forest to fireplace. From choosing the perfect chain saw to managing a woodlot to safely enjoying the pleasures of a backyard bonfire.</p> <p><i>160 pages. Colored photographs</i></p>	<p>18.95</p>
<p><u>Barns</u></p> <p>by Randy Leffingwell</p> <p>All-color photography chronicles the architectural beauty of American barns from the hard-scrabble terrain of New England to the fertile valleys of California, and from the sunny Southeast to the overcast Pacific Northwest. Explanations of architectural design, construction methods and uses are illustrated with brilliant photography depicting structures designed for every conceivable agrarian purpose.</p> <p><i>Paperback. Color.</i></p>	<p>14.95</p>
<p><u>Barns, Sheds & Outbuildings: Placement, Design and Construction</u></p> <p>by Byron D. Halstead</p> <p>Although it harks from a time before power tools, electricity, and gasoline, this book abounds in simple ideas that rural householders still find useful today. Barns, poultry houses, piggeries, corn cribs, ice houses, spring houses, graineries, smokehouses, root cellars and even kennels and birdhouses are included in this fascinating compendium from days gone by.</p> <p><i>Paperback. 236 pages.</i></p>	<p>14.00</p>

Building Smalls Barns, Sheds & Shelters \$ 16.95

by Monte Burch

Provides basic, easy-to-follow construction methods for attractive outbuildings. Here's complete information on tools and materials; foundations and floors; framing, sheathing and roofing; windows and doors; wiring and plumbing; and finishing details. Instructions for: multi-purpose barns, woodshed, toolshed & carport plans, combination small barn/studio, barn-style garage, underground root cellar, smokehouse, housing for poultry, rabbits & hogs, and various fencing designs.

236 pages.

The Bullock Driver's Handbook 30.00

by Arthur Cannon

Arthur Cannon drove bullocks for ten years and is an accomplished author. In The Bullock Driver's Handbook he describes in detail bullock driving as it was in the old days. Here we have a complete description, a how-to guide, which describes making the tackle, selecting and training the bullocks, how to yoke them for various hauling jobs and even plans for making your own carts. This book describes in details the technology underpinning a large slice of Australia's history.

7" x 9 1/2". 136 pages. Black & White. Paperback.

Farm Animals in the Making of America 14.50

by Paul C. Johnson

More than 200 rare engravings from the Golden Age of American livestock breeding. Comments by the author on the importance of farm animals in history.

Paperback. 128 pages. Black & White.

How to Build Animal Housing 24.95

by Carol Ekarius

Helps you evaluate your housing needs of your animals and provides dozens of adaptable plans for sheds, coops, hutches, multi-purpose barns, windbreaks, and shade structures, as well as plans for essential equipment.

260 pages.

Hurry! 16.99

by Jessie Haas

" "Nothing's more important on this farm than hay," Gramp tells Nora. The hay is cut now and drying in the field. But the sky turns milky white. Then it's gray, and then it's grayer. Rain is coming, and that could spoil the hay. Can Nora and Gramp and Gram get it into the barn before the rain comes down? Here come sprinkles and then fat, wet drops....Hurry!"

Hardcover. Colored illustrations.

In Praise of Oxen 29.00

by James and Anderson

Album of stunning color photos celebrating the working oxen of Nova Scotia wearing head yokes for work (farming and logging) and play (shows and pulls).

106 pages. 9x11. Hardcover.

Once Upon a Farm \$ 30.00
by Bob Artley

Here, this well-established illustrator takes an affectionate look at farm life throughout the seasons. All the activities of the year are described and illustrated in fascinating detail. From the butchering of the pigs to the plowing of the corn, Artley describes many, sometimes tedious, sometimes enjoyable, responsibilities of growing up on a farm. From potato digging to milking time, Artley provides the reader with many vibrant paintings, illustrating the scenes of farm life for the reader firsthand.

127 pages. Hardcover

Ox-Cart Man 6.99
by Donald Hall

A lyrical journey through the seasons and passing years of one New Englander's family evokes the feeling of historical America. Ox-Cart Man is the title of a 1979 book written by Donald Hall and illustrated by Barbara Cooney. It won the 1980 Caldecott Medal. The book deals with an 18th century farming family that uses an ox-cart to take their goods to market, where they make the money to buy the things they need.

Paperback. Color pictures.

Oxen - A Teamster's Guide (P) 24.95
by Drew Conroy (H) 34.95

Stalwart and powerful, oxen can plow fields, haul stones, assist in logging, improve roads, and demonstrate traditional farming techniques. And they are stronger, steadier, less expensive, and easier to keep than draft horses. Here is the definitive guide to selecting, training, feeding and caring for working oxen. With proper care and training, oxen can be a dependable, economical alternative to heavy machinery on small working farms.

One color with a 16-page color insert. Photographs and illustrations throughout. 304 pages. 8 1/2" x 10 7/8" Available in hardcover or paperback.

The Pride and Joy of Working Cattle 25.00
by Ray Ludwig

"The average person has only seen working cattle as they appear in pulling competitions at New England fairs. This creates a false impression of what they are and what they can do. If trained and treated properly, they can be an inexpensive source of sensible, dependable power for small use. Using common sense, patience, and discipline, they can be trained to do almost any kind of farm work. Additionally, the trainer can derive a great sense of pride and accomplishment from raising his own team. While there are probably as many methods of training cattle as there are people who train them, I have written booklet to relate what I have learned over the past thirty-five years using working steers and twenty years as a 4-H working steer club leader." - the Preface of "The Pride and Joy of Working Cattle"

Paperback.

Stables and Shelters 13.50
by Toni Webber

Enables horse owners to build and equip a variety of simple field shelters and sheds.

Paperback. 24 Pages. Color.

Starting & Running Your Own Small Farm Business \$ 19.95

by Sarah Beth Aubrey

With entrepreneurial drive, a practical business plan, and some marketing savvy, you can run a successful small farm business that brings your products to your target audience. The demand for fresh, local, organic, naturally raised, lovingly crafted, or sustainably produced small-farm products is on the rise. With seasoned farmer Sarah Beth Aubrey as your guide, discover how you can make the most of these opportunities.

*Paperback. 175 pages.*Sugaring 17.60

by Jessie Haas

Nora and Gramp are collecting sap from maple trees to make maple syrup. The horses, Bonnie and Stella, are working hard, too, pulling the heavy sap tank through the snow from tree to tree. This third story about Nora and her grandparents brings the beauty of a Vermont farm in early spring vividly to life.

*Hardcover. Color.*Tall Trees Tough Men 13.95

by Robert E. Pike

The New England loggers and river drivers were a unique breed of men. Working with their axes and peaveys through Maine, New Hampshire, and Vermont, they contributed mightily to the development of the United States. The daily life of the loggers was hard — working in deep icy water fourteen hours a day, sleeping in wet blankets, eating coarse food, and constantly risking their lives. Their pay was very low, yet they were proud to call themselves loggers. When they came out of the woods after the spring drives, they ebulliently spent their pay carousing in the staid New England towns. Robert E. Pike, who as a youth worked in the woods and on the rivers, writes affectionately and knowingly, with humorous anecdotes, of every detail of lumbering. He describes the daily life of the logging camps, giving a picture of the different specialist jobs: the camp boss, the choppers, the sawyers and filers, the scaler, the teamsters, the river men, the railroaders, and the lumber kings. His descriptions bring the reader vividly into the woods, smelling the tangy, newly cut timber, hearing the boom of the falling trees.

*Paperback.*Training the Teamster 5.00

by Les Barden

Basic guide for training the teamster and team.

*Paperback. 19 Pages.***Videos**A Yoke of Oxen and the Early Settlers 34.95

Oxen played an important role for the pioneer settlers and in pioneer life. At Ross Farm Museum one can see oxen at work and also the making of oxen equipment such as an oxen yoke, blacksmithing, etc. With the help of Ross Farm we have been able to capture the life and history of the early pioneer settlers and their work with oxen. This in depth 90 minute video has been well received in the Oxen community.

90 minutes

Barns \$ 19.95

Come tour some of Vermont's most picturesque barns. View the soaring haylofts, time-worn milking parlors and massive timbers cut from surrounding forests. Visit 200-year-old barns and see how the structures evolved over time. Get a close-up look inside and out and view the weathervanes, cupolas and silos that make each barn unique. See how barns are restored, enjoy a rare day at a barn raising and gain a deeper understanding of the valuable legacy left by master builders of another time.

60 minutes

Conversations with Farmers 12.95

A new type of farming is evolving in Maine and throughout the country. It's called sustainable agriculture and it promises a viable choice for the family farm. Conventional models of agriculture feature a commodity system where large industrial farms produce a single crop, requiring substantial purchases of equipment and chemical inputs. Sustainable farmers limit chemical purchases, engage in compatible and diverse enterprises and market their products locally.

60 minutes

Dead River Rough Cut 24.95

For those of you who can't let go of the past... we have brought back the 55 minute version. Who hasn't dreamed of running away? Bob Wagg and Walter Lane live in a tarpaper shack, hunting, trapping and logging with the help of oxen. They prefer the sounds of birds to the roar of highway traffic, and scorn the money-chasing syndrome of city life.

55 minutes

Farm Stories for Families 12.95

Beloved Vermont storyteller Mac Parker shares his family-friendly tales, beautifully mixed with live-action footage of farm and rural life. Featuring Shelburne Farms and Elgin Spring Farm. From hilarious romps about pigs and peepers to moving stories about family relationships, this is a video for the whole family.

60 minutes

From Stump to Ship - A 1930 Logging Film 19.95

The most complete look at the long-log industry. Men cut trees by hand and load them onto horse-drawn sleds to be hauled over snow to rivers. Skilled river drivers maneuver the logs downstream, risking their limbs and lives every day. Also, work in the steam-powered mill. Remarkably detailed scenes, filmed year-round, are enhanced by the original 1930 script, read here by humorist Tim Sample.

28 minutes

Ice Harvesting Sampler **VHS copies of this film available for 50% off!** 14.95

Ice harvesting was one of Maine's most important industries at the end of the 19th century. Although modern refrigeration technology ended the large-scale export of river and lake ice, cutting and storing ice was still widely practiced in the 1940s. This compilation shows newsreel and amateur footage of ice harvesting operations in Portland, Hinckley, Mt. Desert, and Bangor, Maine. This video includes ice-house interiors with massive ice blocks being maneuvered at high speed, and horse teams delivering ice to brownstones in Boston.

33 minutes

<u>In Days Gone By</u>		\$ 16.95
<p>In the early 1900s technology began propelling the world into a future vastly different from centuries past. Rural communities had a much different experience and only 10% had electricity in 1935. These communities share their stories and memories of rural farm life.</p> <p><i>60 minutes.</i></p>		
<u>King Spruce</u>	VHS copies of this film available for 50% off!	14.95
<p>A detailed account of spruce-wood harvesting in northern New England. Pulp cutters demonstrate, in great detail, their tools and techniques. They assemble axes, use pulp hooks and cant dogs, load a horsedrawn sled for a steep downhill run, and prepare a dynamite charge. An orchestral score backs up the colorful narration.</p> <p><i>23 minutes</i></p>		
<u>Let's Go to the Farm</u>		12.95
<p>Here's a live-action look at a year on a large, working dairy farm. From silage to maple syrup, from a county fair to logging, this refreshing and humorous look at farm life allows children of all ages to witness the clean and messy aspects of raising cows and making milk.</p> <p><i>60 minutes</i></p>		
<u>Logging with Horses, Oxen & Mules</u>		30.00
<p>Professional logger, Brandt Ainsworth discusses safety gear, proper felling techniques, logging horse harness, log carts in a variety of styles, ground skidding, scaling, and decking saw logs.</p>		
<u>Lumberjack Sky Pilot</u>	VHS copies of this film available for 50% off!	19.95
<p>An historic portrayal of the men who made their living with a buck saw and back of steel. Shares true life experiences of lumberjacks during the 1930s and 1940s as filmed by Reverend Frank Reed, one of many itinerant preachers, or "sky pilots," who visited lumber camps in the North Country.</p> <p><i>60 minutes</i></p>		
<u>Maple Sugaring Story</u>		29.95
<p>Maple sugaring was an early practice of native North American Indians and of European settlers in the New World, and is still the first farm crop of the year following the cold New England winter. This video interweaves legend, science, song, history and geography to tell the story of the maple industry. This is made for kids.</p> <p><i>28 minutes</i></p>		
<u>New England's Great River</u>	VHS copies of this film available for 50% off!	19.95
<p>Join storyteller Willem Lange as he explores New England's longest river. Visit the fort at No. 4, a Colonial frontier town where Abenaki came to trade, and a 1798 Gristmill in Littleton, NH. Tour Vermont's Old Constitution House and the American Precision Museum. Watch river drivers dance atop floating logs and see historic covered bridges. Enjoy canoeing, fishing and the scenic splendor of the river.</p> <p><i>60 minutes</i></p>		

So You Want to Be a Woodsman \$ 16.95

A collection of pulpwood industry training films of the mid 1940s. Over an hour of helpful hints and practical suggestions for the aspiring woodsman in five short films: "It Pays to be Trained", "Helpful Hints in Preparing Pulpwood", "Use and Care of a Bucksaw", "Twitching", and "Your Cord of Wood." How to use hand tools and horses; and other lost arts.

VHS copies of this film available for 50% off!

58 minutes

Summer on Ross Farm 34.95

A trip to Ross Farm tells the story of the work of the pioneer settlers throughout the summer months. Growing their gardens, seeding and harvesting their crops, tending their animals and building their homesteads. The pioneer settlers of the mid 1800's led a full but hard life. Follow this video account of pioneer life and see the relationship between the pioneer settlers their animals and the environment around them. Ox footage.

The Canadian Rancher **VHS copies of this film available for 50% off!** 34.95

Cattle ranching is part of the cowboy's way of life in Western Canada. Join Mark as he tells the story of his cattle ranching year and his life as a rancher. The program begins in January, feeding his 450 head cowherd, using a team of horses when temperatures are below minus 20 degrees. Then follow the seasons with Mark through calving time, brandings, round ups, bull sales, calf sales, breaking a team of chore horses and much more. A unique chance to learn about life and history of a true cattle ranching family, cowboys, cattle ranching and this part of the West.

The Story of Wood in the Northeast 14.95

Several species of trees are harvested and graded for a wide variety of uses. Detailed narration and images show woods, as well as sawmill and factory operations in New England, New York, and Pennsylvania. The language and tools remind us of a different time in history. Boards, fine furniture, apple boxes, salt fish tubs, plywood and shoe heels are made. From the invention of the peavey in the 1850s to the widespread use of the "one-man power saw" in the 1950s, this is a comprehensive look at the many uses of wood and the vast array of products derived from it. "Truly the material of a thousand uses." Originally produced for The Northeastern Lumber Manufacturers Association in 1953.

30 minutes.

The Trees Still Grow - A Video History of Berlin, NH 19.95

The story of one New England mill town like so many towns everywhere. Join former loggers, mill workers, historians and environmentalists as they relive the colorful past of Berlin, New Hampshire. Discover how it grew from a small logging town to a diverse and progressive city where French-Canadian, Irish, Scandinavian, Italian and Russian communities live side by side.

Timber is a Crop **VHS copies of this film available for 50% off!** 16.95

This video contains three informational films describing the pulp and paper industry of 50 years ago. "Pulpwood for Today and Tomorrow" explores the history of timber harvesting and how we can ensure its future. "Timber is a Crop" offers a detailed account of the pulpwood process from seed to inside the pulp mill. "The Forest and the Woodsman" discusses the impact of new tools and equipment on the cutting and transportation of logs in the Northeast.

66 minutes

Training Oxen - Conroy & Huppe \$ 33.00

Drew Conroy, author of the highly acclaimed book Oxen, A Teamster's Guide, and Tim Huppe, proprietor of BerryBrook Ox Supply, present this program for training a handy team of oxen using three kinds of commands - verbal, body position, and physical touch. The step-by-step program starts with selecting suitable calves with suitable confirmation and disposition, handling the animals in the barn, establishing training goals, and pre-yoke training. Once the calves are appropriately responsive, Drew and Tim show you how to yoke the team, hitch and work them on a cart or sled, and prepare them for obstacle competition, pulling contests, and practical work such as log skidding and manure spreading. Cattle are shown at different states of training to illustrate the dynamics of starting from initial work with green steers and moving toward the advanced levels a team can achieve after hundreds of hours in the yoke. The diversity of teams and teamsters portrayed in this video clearly demonstrate how anyone with an interest in cattle can have the satisfaction of training a team simply by taking time to understand the animals, making an effort to be consistent, and putting in lots of practice. Come along with our pair of expert New England ox drovers and witness the power and magnificence of a well-trained team of oxen at work in the yoke.

2 hours

Woodsmen and River Drivers "Another Day, Another Era" 19.95

Unforgettable individuals who worked for the Machias Lumber Company before 1930 share their recollections of a vanished world of winter life in rough-hewn lumber camps, a spring of raging waters, frozen boots and life-threatening log jams, and summer in the deafening mill as bare hands hold wood to unguarded saw blades. Gold Medal, International Film and TV Festival.
